

This document is only updated once a week, so dates listed on the update are **not guaranteed**. If a date, time or program is not listed, it is not available. Please provide us with multiple dates and program options and we will do our best to accommodate you and your students.

Note that the "Available" column lists the **number** of programs (not the number of students) available at each time. Each Discovery Lab classroom program can accommodate up to 32 students. If you see two Discovery Lab classroom programs available at the same time, there is availability for up to 64 students. Each Ocean Explorer auditorium program can accommodate up to 120 students. Each Self-Guided program can accommodate up to 60 students. If you see two self-guided programs available at the same time, there is availability for up to 120 students.

Availability is provided by program (at the beginning of the document) and then by date (towards the end of the document)>
